

⊕ The People's Common Law Rights ⚖️

Rights are Not what others allow or tyrants grant.

Rights are what, '**Adults re-assert**', when others try to suspend, remove or make Rights privileges.

Your Rights are hard won by countless Generations:
Ancient Birthrights, Customs and Practices,
spoken as Lore, later carved in stone, written on parchments,
paper and today on electronic screens; enshrined as facts,
with logic, reason and protected by Law.

No records can ever defend your Rights, only make
all aware you have in-a-lien-able Rights at all times!

Rights are defended by 'Living Men & Women'

Lawful disobedience is allowed to restore 'the peace' and 'equity',
against any 'system' and their 'enforcers' that blindly following orders.
Promises of power, wealth, position, and security above the masses?

Lied, bribed, and tied to the few that want '**Absolute Rule**' over all.
Be they Bankers, Leaders, Political Parties, Businesses or Military thugs.

Know Your Rights, if you do not know them, you can not claim, or defend them,
and think you have none. At all times you have Rights, **Stand Your Ground!**

- **Know Your History**, if you do not know, you and later generations are doomed
to fight to re-assert your '**in-a-lien-able Rights**' again and re-echo the many bloody
battles of the past, to re-establish those hard won ancestral freedoms...
- *Because of Authoritarian Treachery throughout history and today...*
Your Rights from Lore are in many documents, spread over a millennium of time.
Rights are part of everyone's soul, as all yearn to live free & unencumbered...
- **The 'Price of Freedom' is 'Eternal Vigilance', stand your watch**
*call out oppressors, vote out tyrants and their sycophant minions for they
Trespass at own risk and personal peril, for the People are the real power!*
